International Journal of Andrology, 1988, **11**, pages 563–564

Subject index

Acrosome, capacitating conditions and sperm survival 465
Androgen binding protein
  concentration after EDS treatment 153
  factors controlling release of 153
Androgens, effect of seminal vesicles 133
Antispermatozoal antibodies, in seminal plasma 101
Asthenozoospermia, sperm motility in 289

Blood flow of the testis, significance of arterio-venous anastomosis 493
Blood-testis barrier, rat, development of 225
Bromocriptine, effect on seminal vesicles 133

Contraception
  application of sperm-specific antigens 479
  assessment of medroxyprogesterone as 265
  hormonal 187
Cryptorchidism, effect on Leydig cells 209

Epididymis
  human, functional evaluation by glycerophosphocholine 405
  lizard, effect of testosterone on protein synthesis 349

FSH
  in testosterone replacement therapy 247
  rat, effect on early proliferation of germ and Sertoli cells 235
Furazolidone
  effect on LH output 141
  effect on spermatogenesis 141

Gamma-glutamyl transpeptidase, in bull reproductive tissues 123
Germ cell, rat, degeneration after EDS treatment 507
Glutathione, in bull reproductive tissues 123
Glycerophosphocholine, possible role in the regulation of sperm motility 405
GnRH agonist, effect against spermatogenic damage caused by cytotoxica 425
Gonadotrophins
  in heroin addicts 93
  in men treated with progestagens in combination with androgens 187
  monkey in hypo- and hyperprolactinaemia 53
  rat, serum levels after testicular heat damage 61, 73
Gossypol
  effect on spermatogenic cycle in rat 533
  fertility after cessation of treatment 533
  spermatogenesis after administration of 1
Grafts, hamster, fetal gonads grafted into adult testis 327

HEPA, correlation with routine semen analysis parameters 369
Human chorionic gonadotrophin
  effects on testicular cyclic AMP content 179
  compounds mediating effect in human testis 179
Hypo-osmotic swelling test, relationship with HEPA in human sperm 369
Hypogonadism, testosterone replacement therapy in 247

IGF-I, effect on Leydig cell steroidogenesis 165
Immunocytochemistry, antibody labelling of human sperm 13
Infertility
  antispermatozoal antibodies 101
  immunological 37
  prognostic value of clinical characteristics 395
  prognostic value of routine semen analysis parameters 369
  prognostic value of sperm characteristics 379
Insulin, effect on Leydig cell steroidogenesis 165

L-glutamic acid, in bull reproductive tissues 123
LH
  effect of furazolidone treatment 141
  in testosterone replacement therapy 247
LHRH-agonist, mouse, effect on treatment on testicular vascular permeability 449
Leydig cell
  after induction of unilateral cryptorchidism 209
  monkey, effect of prolactin administration 53
  rat, effect of insulin and IGF-I 165
  rat, testosterone production and spermatogenesis 507
  rat, testosterone secretion after local heating 61, 73

Medroxyprogesterone acetate, induction of reversible male infertility 265
Mixed Antiglobulin Reaction (MAR test), direct and indirect method 37

Orchiopexy, dog, impaired spermatogenesis 115

Physical exercise, effects on hormone levels 361
Prolactin
  effect on seminal vesicles 133
  in heroin addicts 93
  mechanism of control of secretion 459
  monkeys, effect on testicular steroidogenesis 53
Prostate, prolactin levels before and after prostatectomy 459

Rats, H^{re}, infertility in 313

SHBG, in testosterone replacement therapy 247
Selenium, in semen of infertile males 415
Semen quality
  in heroin addicts 93
  in relation to degree of coagulation 45
  and sperm morphology assessment 107
Semen
  human, antispermatozoal antibodies 101
  human, coagulum of 45
  human, glycerophosphocholine in seminal plasma 405
  human, measurements of selenium, rubidium and zinc 415
Seminal vesicles, effect of androgens, prolactin and bromocriptine 133
Seminiferous tubule
  human, atrophy and protusions of 25
  human, regeneration of 25
  rat, effect of gossypol 533
  rat, sperm release, possible role of Sertoli cells 301
Sertoli cell
  bidirectional secretion 87
  function 87
  rat, immunolocalization of testibumin 547
  rat, possible mechanism of early proliferation 235
  rat, possible role of ectoplasmic specializations 301
  rat, possible secretion of an interleukin-1-like factor 437
Sperm count
  after adminstration of medroxyprogesterone acetate 265
  in men treated with progestagens in combination with androgens 187
Sperm morphology
  in relation to hamster zona-free oocyte penetration 107
  predictive value for fertility potential 395
Sperm motility
  in asthenozoospermic patients 289
  objective assessment of 277
  predictive value for fertility potential 395
  turkey, after furazolidone treatment 141
Sperm
  acrosome reaction 465
  antibodies (MAR test) in semen and serum 37
  antigens that regulate fertility 479
  antispermatozoal antibodies 101
  characteristics of value for fertility prognosis 379, 395
  disposal of through urine 201
  labelling with monoclonal antibody 13
  production of, after gossypol treatment 1
Spermatogenesis
  compensatory reaction for decline in 25
  dog, after orchiopexy 115
  human, in heroin addicts 93
  human, inhibition of 187
  rat, after EDS treatment 153
  rat, effect of GnRH against damage by cytotoxic drugs 425
  rat, effect of gossypol treatment 533
  rat, possible mechanisms of suppression 313
  rat, possible role of an interleukin-1-like factor 437
  recovery after gossypol administration 1
  turkey, effect of furazolidone treatment 141
Spermatogonia
  hamster, proliferation of, in fetal grafted gonads 327
  rat, possible mechanism of early proliferation 235
Spermiogenesis, possible role of Sertoli cell ectoplasmic specializations 301
Steroidogenesis, monkey, effect of prolactin 53

Testibumin, immunolocalization in testis and epididymis of rat 547
Testicular biopsy, report method 473
Testis
  hamster, inhibition of fetal gonad differentiation 327
  mouse, mechanism of gonadotrophin-induced vascular permeability 449
  pig, arterio-venous anastomosis in scrotal and cryptorchid testes 493
  rat, effect of local heating on Leydig cells 61, 73
  rat, lesions after testicular biopsy 525
Testosterone hydroxylases, rats, nutritional-related alterations 339
Testosterone replacement therapy in hypogonadal men 247
Testosterone
  in heroin addicts 93
  lizard, effect on protein synthesis in the epididymis 349
  rat, Leydig cells and spermatogenesis 507
  rat, Leydig cell secretion after local testicular heating 61, 73
  rat, metabolism 339
